Dear Sir:

This paper is being filed in response to the Notice of Defective Response dated July 29, 2002 (hereinafter "Notice II") that was issued in connection with the Notice of Missing Requirements Under 35 U.S.C. §371 dated April 9, 2002 (hereinafter "Notice I") and Applicant's Response filed July 8, 2002.

Both Notices I and II alleged that the nucleotide and/or amino acid sequence disclosure contained in the application does not comply with the requirements of 37 C.F.R. §§1.821-1.825.

Applicants traverse this allegation and assert that 37 C.F.R. §§1.821-1.825 do not pertain to the instant application. While the instant application contains disclosures of the formula and structure of several chemical compounds and defines acronyms for the names of chemical compounds, it completely lacks any nucleotide or amino acid sequences. Therefore, no sequence listing is required for this application and Applicants response to Notice I dated July 8, 2002 has brought the instant application into full compliance with the requirements of 35 U.S.C. §371.

Since Notice II was issued due to an error by the Patent and Trademark Office personnel and the sole purpose of this response is to point out that error, Applicants do not believe that any extension of time fees are due with this response under 37 C.F.R. §1.17. Nevertheless, any fees required for this submission not otherwise enclosed herewith may be charged to Deposit Account No. 02-4377. However, this does not constitute a waiver of Applicants right to demand a refund for any extension of time fees charged. Two copies of this page are enclosed.

A copy of the Notice is enclosed herewith.

Respectfully submitted,

August 12, 2002
